RESIDENTIAL DEVELOPMENT & ADVISORY

SAMOS delivers residential real estate across its full lifecycle, from concept and design to construction management and handover, now with a registered presence in Saudi Arabia through **SAMOSstructure**.

The portfolio spans residential buildings, private palaces, villas and apartments, drawn from the track record of SAMOS and its founding partners across Lebanon, the Gulf, Europe and wider international markets.

For Gulf principals investing in European real estate and for owners developing at home, SAMOS combines origination, structuring and delivery under one accountable platform.

STRATEGIC PARTNERSHIP

In partnership with Dolmen Development UK

Many of the projects in this portfolio were delivered through our close and long-standing partnership with Dolmen Development UK, an engineering, development and construction management firm with a track record across the United Kingdom, the Gulf, Europe and Africa. SAMOS combines origination, structuring and advisory with Dolmen's design, engineering and delivery capability, giving clients a single accountable platform from concept to handover.
